

PROFILE

I chose to study Physics in order to develop my mathematical ability within a subject I find deeply interesting. After graduating, the IT industry is where I felt I could best apply my learned skillset, including problem-solving and logical thinking, while keeping within a field of personal interest.

Both in and out of the workplace, I thrive to discover new things. This

Programming Languages

Dummy, Data, Test, Java(Maven, JUnit, Cucumber, Selenium), JavaScript

IDE's

eclipse, sheep, Test

Operating Systems

Windows, Linux, Hack
